organisations will enable us to bring innovative solutions and services for global customers. I am pleased to welcome Jan to Microland, added Kar.

”

*Technology Infrastructure services is in a period of rapid evolution towards radically more agile, scalable and user-centric computing. Microland is a next generation IT and Cloud Services Company and is well positioned in the center of this transformation with core capabilities across cloud and datacenter, networks and security. I am excited to join Microland and help shape its next phase of innovation and growth – Jan Huizeling*

Jan comes with over 30 years of technology leadership experience, enabling large organizations through their technology and business growth. Prior to joining Microland, Jan was the Global Chief Information Officer, Global Cloud Xchange (part of Reliance Communications) where he spent 8 years based in London and India.

Jan was also the Global Head of Product Development for Global Enterprise Business across data, voice and datacenter portfolios, where he led a large team of engineers and supported revenues of \$1.5 billion per annum.

Earlier, Jan worked as a Supply Chains Solutions Director and CIO at large international transport and logistics companies which included TNT Logistics-Europe, GE Capital Logistics/Penske-Netherlands/USA, Prologis and Christian Salvesen plc, UK.
